 - ↓ **Make recommendations from K&C team**
 - Classifications at different resolutions.**
 - Evaluation of mosaics**
 - Provide data for validation of JERS-1/ALOS time-series.**

Global Change Biology

Rebelo, L. Understanding future changes to the Sudd wetland: potential impacts of the Jonglei canal.

Lucas, R.M. Mangrove response to climate change in northern Australia: observation using ALOS PALSAR and Landsat sensor data

Lucas, R.M., Degradation and regrowth in Australian wooded savannas observed using ALOS PALSAR data.

Le Toan, T. Estimating forest regrowth rate using spaceborne SAR data.

Hoekman, D. Change detection in the tropics?

Shimada, M. Generation of global 10 m high resolution wall-to-wall image and classification mosaics using JERS-1 SAR and ALOS PALSAR data.

Longépé, N. Deforestation during last decade across the Sumatra Island using L-band SAR data.

Salas, W. Rice ?

Amaral, S. Deforestation in Amazonia.

De Grandi et al., Change in Africa.

Schmullius C. Title TBD

Milne & Mitchell, JERS-1/ALOS and optical time series synergy analysis over Tasmania

McDonald et al TBD

Shimada & Hokkaido U - Subsidence of peatlands

**Drafts to be brought along in June
(KC#14)**

ARSPC, Alice Springs

Lucas - biomass retrieval

Armston - environmental impacts

Clewley - inversion modelling

Milne/Hess - wetlands

Mitchell - Tasmanian forests

Lucas - mangroves and wetlands

JAXA?

Abstracts due Feb. 1, 2010

Special Issue: K&C Outcomes

Journal: TBD

Lisa Rebelo and Laura Hess - Wetlands

Niels Wielaard and Dirk Hoekman and Nicolas Longép  - Land cover classification

Richard, Tony, Christiane, Maurizio - Degradation and disturbance

Thuy Le Toan and Richard Lucas - Biomass

Paul - Structure

Maurizio Santoro and Silvana Amaral(?) - Deforestation.

Lucas and Thuy - Regrowth

Richard and Maycira(?) - Influence of spatial resolution on classification accuracy

(Comparison of mosaics vs strip vs scene data)

To distribute template and indicative contents
