

Mosaic Image Display on Google Earth

Test Case in Generating KML file

Akira MUKAIDA, Takahiro OTAKI(RESTEC)

Masanobu SHIAMDA, Takeo TADONO (JAXA/EORC)

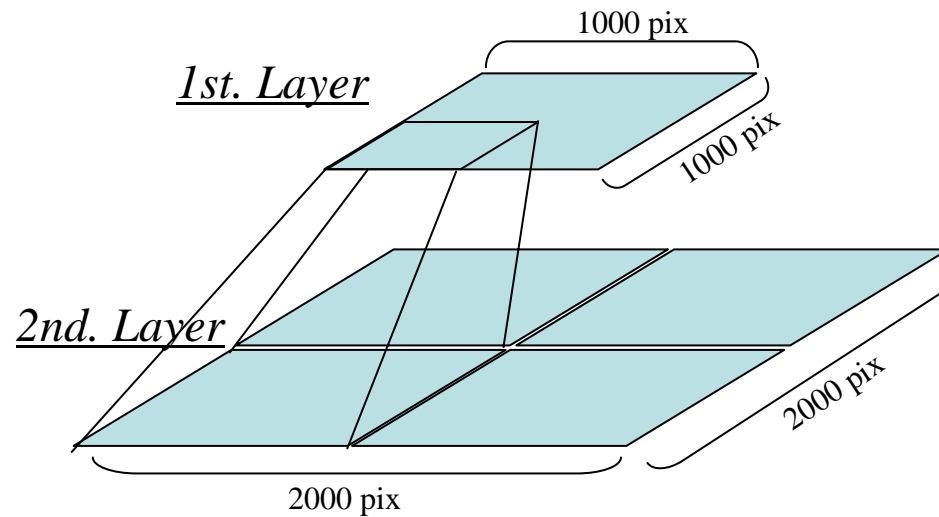

Objective

- Displaying processed PALSAR image on Google Earth.
 - Useful to know status of processed or lack of the data.
 - Easy to check higher resolution of image quality.

Data Structure for GE

- Used mosaic image over Japan island.
 - 12000 x 12000: Original size of entire image.
 - 50m in spatial resolution.
- Each image file size is 1000 x 1000.
 - 2 layers are tested.
 - 1st. Layer: 600m resolution
 - 2nd. Layer: 300m resolution

Data Structure for GE cont.

Deeper layer required
to get original resolution.

.....

3rd. Layer: 4000 pix sqr.

4th. Layer: 8000 pix sqr.

5th. Layer: 16000 pix sqr.
