

JAXA correction of ground truth data from K&C science teams

Data transfer method:

- Use USB-disk or portable hard-disk, and copy the data to our PC at K&C meetings (#18, #19, ...)
- E-mail attachment (data volume: not exceeding 10MB)
- Web file transfer services
- Use your FTP server
- Send DVD/Blu-ray disks

For each data, please send "readme file" (data description, file format, etc.) together.

Example of readme file contents

- File format
 - ✓ text, excel, shapefile, geotiff, kml/kmz, jpg(photos), etc.
- Location
 - ✓ latitude and longitude at each observation point
- Data acquisition date
- Data information
 - ✓ Items (e.g. Biomass) and unit (e.g. t/ha),
 - ✓ Methodology
 - ✓ References
- Data policy, restriction

Welcome Reception

“Oidon” Azabu-ten
