

Status of Action Items from the Last JAXA PI Workshop

22 November, 2007

ALOS PI Symposium

JAXA/EORC Secretariat

A/I Status (1/3)

- No. 1-4 (JAXA): Supply 300 scenes for PI's requirements for making DEM/DSMs
- No. 1-5 (PIs): Submit the specified requirement for making DEM/DSMs
- A few PIs requested PRISM DSMs and JAXA created and provided. (Closed)
- If more requests, JAXA consider to provide them within JAXA capacity.

A/I Status (2/3)

- No. 1-6 (JAXA): Consider distribution of PRISM DSM generation software
- The software can be distributed if requested under a certain JAXA license policy. (Closed)

A/I Status (3/3)

- No. 1-10 (JAXA): Endeavor to meet PI's observation requirements for full and dual polarimetric modes.
 - No. 1-11 (JAXA), 1-12 (PIs): Coordinate observation scenario
- Three times of coordination were held for effective accommodation of PIs observation requirements. (Closed)

Summary of A/I Status

- Unfinished A/Is (as of the 1st ALOS PI Workshop, 2002) are all closed
- The future observation strategy will be considered after the discussions in this symposium.
