

ALOS

K&C Initiative
An international science collaboration led by JAXA

ALOS-2, ALOS and JERS-1 products

Data products

•Standard products (“AUIG data”)

- JAXA commercial data
- Scene-based products
- Order through: JAXA’s AUIG2 online archive system <https://auig2.jaxa.jp>
- Technical questions to EORC Order Desk: z-orderdesk@jaxa.jp
- Allocation:
 - 50 scenes/year.
 - Quota reset 31 March every year (recommend to order before March 20)
 - Unused quota for Year N cannot be transferred to next year, so be sure to order in time

Data products

•Path data

- Products generated on demand by JAXA EORC
- Paths that can extend over several hundreds of km
- Order through JAXA EORC (Ms. Keiko Ishii): z-ALOS-KC@jaxa.jp
- Use the K&C order form (Excel - will make available on on K&C Wiki)
- Allocation:
 - No pre-determined quota. According to your agreement with JAXA
 - Orders can be made anytime

Data products

•Mosaic data – ALOS-1 & ALOS-2

- 25m pixel spacing
- 2007, 2008, 2009, 2010, 2014/2015
- Open to the public, free of charge
- Access: http://www.eorc.jaxa.jp/ALOS/en/palsar_fnf/data/index.htm
- Simple user registration
- Download as much as you please

Data products

•Mosaic data – ALOS-2 ScanSAR

- 50m pixel spacing (TBC)
- 1° x1° tiles
- Order through JAXA EORC (Ms. Keiko Ishii): z-ALOS-KC@jaxa.jp
- Use the K&C order form (Excel - will make available on on K&C Wiki)
- Allocation:
 - No pre-determined quota. According to your agreement with JAXA
 - Orders can be made anytime

Data products

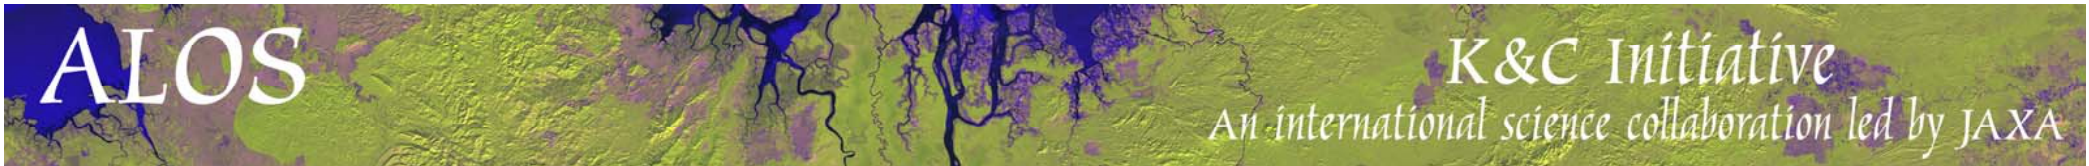

•Mosaic data – JERS-1

- 25m pixel spacing
- Around 1996
- Order through JAXA EORC (Ms. Keiko Ishii): z-ALOS-KC@jaxa.jp
- Use the K&C order form (Excel - will make available on on K&C Wiki)
- Allocation:
 - No pre-determined quota. According to your agreement with JAXA
 - Orders can be made anytime

Data products

• JERS-1 standard products

- Scene-based products
- Open to the public, free of charge
- Order through:
 - JAXA's G-Portal online archive system www.gportal.jaxa.jp
 - Directly by FTP
- Technical questions to EORC Order Desk: z-gportal-support@jaxa.jp

The following JERS-1(Japanese Earth Resources Satellite-1) products are open to the public with free of charge.

*Synthetic aperture radar (SAR): Level 2.1

*Visible and Near Infrared Radiometer (VNIR): Level 2

*Short Wave Infrared Radiometer (SWIR): Level 2

It is possible to download these products by selecting from the following buttons in the STEP2 (Product Select) on the G-portal website.

*JERS-1/VNIR L2

*JERS-1/SWIR L2

*JERS-1/SAR L2.1

Immediate download is available for the above products except for some of them. If you would like to get such unprepared products, please order from the following buttons in the STEP2. You can download the product within three days of your order. This download is also free of charge.

*JERS-1/VNIR (order)

*JERS-1/SWIR (order)

*JERS-1/SAR (order)

Immediate download for the above remaining of products will be ready within one month, so please wait until then.

In addition, SAR Level 0 product will be also available from MARCH2016.

By generating a public key, you can download products directly by SFTP. The method to download the above ordered products is only SFTP, not from G-Portal website.

Please refer to section 3. Direct Download Products in the User Manual about generating a public key and direct download.
