

## Extension issues to discuss

- Remaining strip data issues
- Meta data description for products to JAXA
- Journal special issues
- Mosaicking standards
  
- Observation strategy
  - ScanSAR
    - Confirm Wetlands polygons
    - Confirm schedule
  - FB
    - Schedule for Cycle 31 ->

## Basic Observation Strategy – PALSAR Ascending

Present plan in operation until cycle 30 (Oct. 27, 2009)

Year	Month	Satellite cycle	2007												2008												2009

**Potential changes :**

**ONE global coverage/year (FBD May-Sept) guaranteed**

**TWO pan-tropical coverages/year  
(FBD May-Sept & FBD Dec-Feb)**

**InSAR coverage (46-days May/Sept) over selected regions**

**Automatic gap-filling of missed passes**

## ScanSAR Wetlands Draft plan for 2009-2011

- Request from JAXA to reduce ScanSAR observations
  - Sharing descending mission resources with PRISM and AVNIR-2
  - Way to improve success rate for remaining ScanSAR observations
- Wetlands scenario modified according to KC#10 Wetland Theme discussions
  - 14 areas discontinued; 8 modified; 5 unchanged
  - Tropical zone coverage dual purpose: wetlands and forest
