

ALOS

K&C Initiative
An international science collaboration led by JAXA

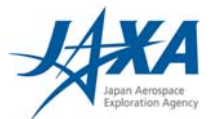

ALOS Kyoto & Carbon Initiative Science Team meeting #14

Afternoon work session

RESTEC HQ June 16, 2010

Ake Rosenqvist, K&C Science Coordinator

Science Team meeting #14
JAXA TKSC/RESTEC HQ, Tsukuba/Tokyo, June 14-18, 2010

Afternoon session open floor discussion

- Phase 1/Phase 2 assessment: Have we achieved the goals and objectives we initially set out for K&C?
- Desired direction for Phase 3

Next step: Phase 3

Phase 2 assessment

- Did we achieve the objectives set out for K&C?
 - develop regional-scale applications;
 - support to Carbon;
 - support to Conventions;
 - support to Conservation;
- K&C mosaics: are they used? Are they timely? Are they accurate?
- What did we do right?
- What needs to be improved?
- Theme coordination

Next step: Phase 3

- K&C mosaics: are they used? Are they timely? Are they accurate?
 - What did we do right?
 - What needs to be improved?
 - Theme coordination
-
- New Theme? (Ice? Glaciers?)
 - Important indicator of climate change
 - Inclusion in K&C reduces risk for acquisition conflicts
